Are you considering French Immersion for your Kindergarten or Grade 1 child?

Bilingualism is achieved by providing instruction of the basic curriculum entirely in French during the first years. Once a firm base in French has been established, instruction in English language arts is added, and instruction in the English language gradually increases. Students continue to receive instruction in certain subjects in French so that by the end of Grade 12 proficiency is achieved in both languages www.bced.gov.bc.ca/policy/policies/french_immersion

John Field Elementary School is accepting registration for the Kindergarten & Grade 1 to the **French Immersion Program** 2010/11 school year. Please register at the main office with your child's birth certificate.

Thumbs down: it seems that all kids aren't receiving the school supplies that they are being funded for.
